

RGT PLANET

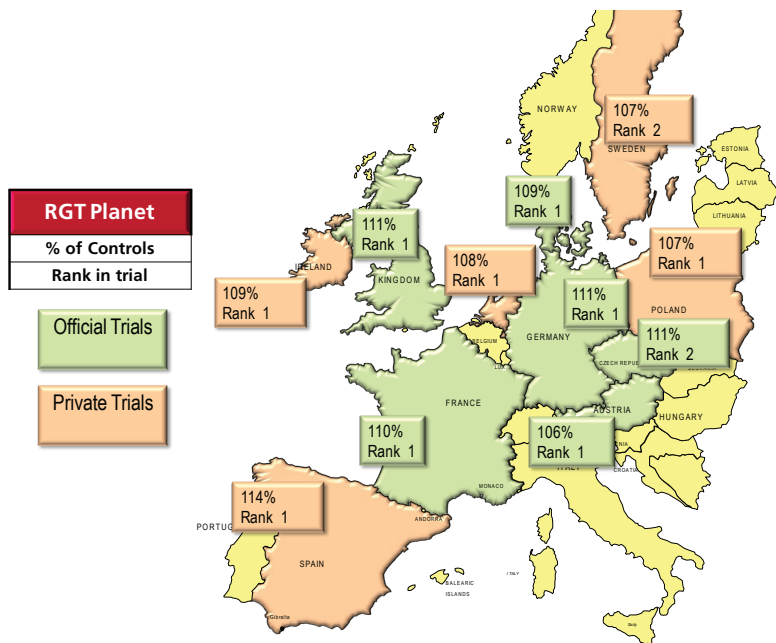

YIELD

Treated yield as % of treated controls (east, west, north limited data). Untreated yield as % of untreated controls

RGT PLANET is the highest yielding spring barley on the 2014/15 RL candidate list. It is the first truly pan-European malting variety from RAGT Seeds. Not only has it given consistently high yields across all UK regions, it has also excelled in yield trials across Europe and South America. It is under evaluation by a number of European maltsters.

AGRONOMICS

	Mildew	Yellow Rust	Brown Rust	Rhyncho'	Lodging UT	Specific weight	Maturity days +/- Optic	Height cm
RGT PLANET	9	5	6	4	0%	66.8	+2	74
Concerto	8	7	6	4	5%	67.6	+2	78
Propino	8	4	6	7	1%	66.6	+1	77

BREWING QUALITY

We have received encouraging feedback from several European maltsters on RGT Planet's brewing quality.
